

## Tuffie 5 Cleaning & Disinfecting Wipe

Feature	Benefit
Cleaning and disinfecting wipe in one	No need for two separate wipes or chlorine based tablets thus saving nurse time and cost
Eradicates the five major pathogen groups, including C. Diff and MRSA.	Infection prevention with total cleaning and disinfecting peace of mind
Convenient, ready to use, pre-impregnated wet wipes	Reduces the chances of spreading infection associated with re-usable cloths
Safe on the hands even with prolonged, regular use	No need for gloves and safe to the skin if contact is made
Safe to use and effective on all surfaces and equipment	Reduces costs associated with replacing equipment due to damage caused by chlorine or alcohol based cleaning products
Tested to approved British and European Standards	Independent tests show Tuffie is safer and more effective than alcohol based wipes
Cosmetically Approved to EU 76/768/EEC	A skin safe cleaning & disinfecting wipe
Single-use, large, strong and easy to use wipes	Durable and large to cover a wide surface area and multitude of uses - one wipe fits all
Alcohol/Chlorine Free - kind to the environment with no health and safety risks while preventing drying of skin	A non-hazardous product that is safe to use on wards with no PPE Requirement
Tests show disinfecting properties continue to work after initial cleaning	Long lasting impact for improved infection prevention
